DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 5/2/06 has been entered.

Information Disclosure Statement

2. The information disclosure statement (IDS) submitted on 5/2/06 is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement has been considered by the examiner.

3. The following is an examiner's statement of reasons for allowance: The closest prior arts are US 5,059,713 and US 4,942,259, both of which teach similar process of making N-vinyl amides, see for example claims of both the patents. However, the references differ from the claimed process in that none of the references suggest reactant to be a metal attached to the N-vinylformamide. There is no motivation to arrive at the claimed process using the prior art processes, as none of the references suggest starting material, salt of the amide. Kless et al is further cited to show the state of the art. See page 2098.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
